

Place the basket in your BBQ. Fill it all the way to the top, and get ready to fire things up!

After lighting up, enjoy steady temperature control and improved airflow for the perfect cook!

Give the basket a shake for easy cleanup and reuse the leftover charcoal for your next cook!

*Shake that Ash  
Light that fire*

★ **Easy Grilling Starts with Kick Ash** ★

## **Basket**

The Kick Ash Basket improves airflow for faster start-ups and steady heat. It keeps your charcoal burning efficiently and makes cleanup simple just lift and shake. You can reuse leftover coals with ease. More control, less waste and a longer-lasting firebox.

---

## **Can**

The Kick Ash Can catches ash for easy removal and a cleaner grill. It sits beneath your Kick Ash Basket to prevent buildup and improve airflow. No more digging or mess after cooking. Smoother cleanup, better performance and less hassle.

---

## **Divider**

The Kick Ash Divider lets you split your basket for two-zone grilling. Cook direct and indirect at the same time with better heat control. It helps you save charcoal and manage space efficiently. Ideal for slow cooks, searing or multitasking meals.

---

## **DripPan**

The Kick Ash Drip Pan catches grease and drips to keep your grill clean. It's perfect for indirect cooking and protects your coals from flare-ups. Made from durable stainless steel and easy to clean. Less mess, better flavor and longer grill life.
